SUSTAINABILITY SERVICES

YOUR END-TO-END SUSTAINABILITY SUPPORT

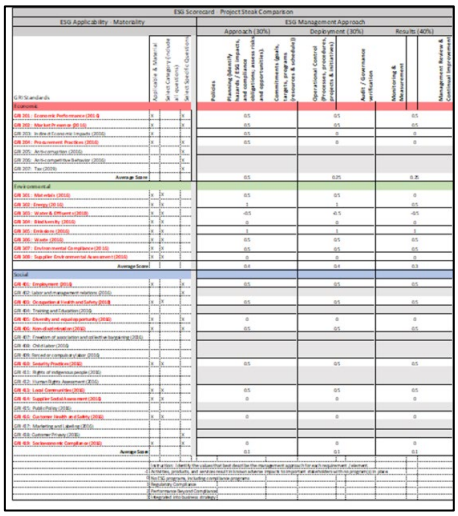
EHS Support℠
Consider it Done®

EHS Support is your go-to expert for sustainability results.

We specialize in delivering comprehensive sustainability solutions tailored to your unique business needs. Our suite of services ranges from corporate strategy to managing Net Zero emissions to ESG reporting and beyond. We help you design, implement, and manage innovative green initiatives that drive business value and boost competitive advantage by reducing costs and managing risk. Let's partner to deliver a sustainable future together!

STREAMLINING SUSTAINABILITY

EHS Support helps you achieve your organization's Environmental, Social, and Governance (ESG) goals and operational objectives. We partner with you to define ESG for your organization. Whether it's for the business entity, supply chain, use and end-of-life impacts of products or services, or the impact of an acquisition to your organization's ESG programs, we focus on material ESG impacts while recognizing stakeholders and ESG-related risks and opportunities, all with the goal to inform and drive business strategy. As a result, you're able to avoid common ESG mistakes and report accurate results to board members, shareholders, and interested stakeholders.



EHS Support has developed a scorecard to compare and report the maturity of ESG programs with an easy-to-understand rating system.

EHS Support helps clients:

- Understand and document ESG impacts
- Comply with disclosure requirements
- Find hidden value in their business

COMMON ESG CHALLENGES

- Variety of sustainability/ESG standards and criteria
- Identifying impacts, risks, and opportunities
- Board/Organizational blind spots around ESG
- Aligning ESG metrics with the business strategy
- Lack of assessment and monitoring
- Too much data or not enough useful information
- Leveraging ESG for business growth
- Understanding & compliance with reporting requirements

ESG OFFICE SET-UP

Starting out on your sustainability journey? Our ESG Office Set Up service is designed to pave the way for your success with a package that ensures you are focused on managing the right priorities (materiality assessment) and provides you with the management infrastructure to succeed. Agenda setting, governance structure, policy/process documentation, target operating model, KPI allocation, and initiatives design come together to successfully kick-start your sustainability journey.

SUSTAINABILITY AS A SERVICE

For difficult-to-address sustainability pain points, consider us as an extension of your management team. Our Sustainability Service provides you the peace of mind that difficult ESG areas are being managed on your behalf by our expert teams with ongoing support with Net Zero implementation, supplier sustainability management, subsidiary ESG performance management, and more.

CLIMATE & SUSTAINABILITY DISCLOSURE REQUIREMENTS

Are you prepared to respond to the rapidly growing list of climate- and sustainability-related disclosure requirements? The California Climate Disclosure requirements and European Union Corporate Sustainability Reporting Directive are leading the way, but there is a longer and growing list of ESG disclosure requirements. EHS Support helps organizations assess impacts, risks, and opportunities; develop adaptation and mitigation strategies; and prepare to meet these disclosure requirements.

EHS Support has developed tools and approaches to help you on your ESG journey.
