
EHS Support believes that the health and safety of your employees, clients, and visitors are an integral part of your business and a sound investment. Our commitment to that belief and to our clients is centered around the culture of excellence that we have built by understanding your business and finding unique solutions to health and safety concerns no matter how large or small. Our extensive experience and knowledge across all industry sectors, enable us to think out-of-the-box and customize value-added solutions to fit the uniqueness of each organization and each project.

While there are regulatory components in all of our services, the primary focus is to evaluate, identify, and prioritize risk; eliminate injuries to the workforce; improve financial performance; and reduce liabilities for each of our clients.

EHS Support can help your business develop or update a health and safety program that will:

- Positively impact the culture within your organization from reactive to proactive or reinvigorate an existing proactive behavior-based safety program
- Shift the focus of meeting compliance requirements to meeting industry's highest standards and best practices that help keep employees safe and minimize liability risks
- Focus on performance to reshape your competitive image and reputation
- Lower costs associated with accidents and claims, experience modifiers, premiums and evaluation periods
- Ease the burden felt by site EHS personnel

HEALTH & SAFETY SOLUTIONS

EHS Support is confident that we can support any safety and industrial hygiene need presented because of the experience of our staff and reach of our international resources. We provide practical solutions to both regulatory and strategic health and safety issues faced by companies – always with the understanding that corrective actions can protect employees and align with our clients' business goals. Our team can positively influence the efficiency, effectiveness, and ultimately the financial expenses of your business by reducing workplace incidents, advising clients of upcoming code and rule changes to ultimately prevent violations issued by inspectors.

Services provided by our health and safety team include:

- Personalized service tailored to your company's needs; 24 / 7 / 365
- Comprehensive health and safety management systems and auditing
- Turn-key solutions or project specific applications
- OSHA required and best practice training – for any team member, entry level to executive, or site-specific needs you may encounter
- Professional insight and compliance with OSHA health and safety requirements
- Safety committee development
- Facility mock-OSHA audits
- Evaluation and reduction in workers compensation costs
- Accident reduction and prevention programs
- OSHA abatement strategies
- Incident investigations
- Industrial hygiene risk assessments and evaluations including; noise, indoor air quality, chemical exposure, and ergonomics
- Behavior (performance) based safety programs and incentives
